Muni-Link Joins Alliance of Indiana Rural Water; to Exhibit at Spring Conference

Bellwood, PA; February 12, 2018. Muni-Link Billing Software, a division of Link Computer Corporation adds Indiana Rural Water Association to its growing list of industry membership associations. In addition, they will participate in the upcoming annual conference in French Lick, IN March 14th and 15th.

Muni-Link launched its billing software in PA in 2000; and the growth of customers across the country has been overwhelming. Muni-Link now has association memberships and customers in PA, MD, WV, KY, OH, NY, and more to come.

Mac Rosenbaum, SVP Sales & Marketing, Muni-Link:

“The acceptance of Muni-Link Billing Software has been remarkable. While some can be resistant to change, our software has been embraced by organizations who bill for utilities across the country. The reason is simple; this is the last software providers will ever have to switch to. Ever.”
